COVID-19 (Coronavirus) Business Update**

07th Jan 2022

We would like to offer our latest business update on the COVID-19 as it has been spreading across the country and world. Local authorities have applied restrictions to prevent the spread of the virus, potentially impacting production, and supply chains. At APM Terminals Pipavav, we are following our standard crisis protocols at international and customer levels and are doing our utmost efforts to reduce impact of COVID-19 on your supply chain.

We remain fully operational, vessels calling the port are arriving and sailing as scheduled and all our employees are fully enabled to work to secure business continuity while complying to all guidelines for COVID-19 issued by statutory authorities. We are closely monitoring the local situation and committed to ensure the safety of employees whilst working towards mitigating any possible impact to your supply chain.

We continue uninterrupted services to accept container / cargo arriving by Vessel, Rail, and road. Port Customs house, clearance, and other business activities at the port and associated CFS facilities, Liquid / Gas and RORO terminals are working without any interruptions. In case you foresee a need to divert cargo due to supply chain challenges caused by restrictions, we are pleased to support with finding temporary solutions to fit your business.

Importantly, GPPL has presently prohibited entry for non-business critical visitors at the Port as a precautionary measure to mitigate spread of CORONAVIRUS-19. However, business critical visits will be permitted on prior approval and visitors will undergo health screening along with RTPCR negative report being mandatory at port entry. Appended with this advisory is the self-declaration form that visitors should bring duly filled and submit at screening point in security gate complex.

We shall keep all our stakeholders and customers updated through our 'Advisories'. You may also stay connected with our corporate and regional offices for any information on port operations.

Your usual sales contacts are available for any questions or concerns. We are committed to supporting you and your business in the best possible way throughout this challenging situation.

**Thank you,
APMT Pipavav
