TRADE NOTICE

Sub: Finalization of discharge sequence for edible oil ships

It has come to the notice of this office that there is inordinate delay in commencement of cargo operation of edible oil ships and the said delay is primarily attributable to the process of finalization of discharge sequence, which at present is done after berthing of ship.

It is needless to mention that such pre-commencement delay is not acceptable and due to such delay, a substantial number of ships are failing to achieve the stipulated productivity norms.

In light of the, it has been decided that in order to consider a vessel ready for berthing henceforth, in addition to the documents in vogue, the vessels agents need to submit a confirmation to the effect that discharge sequence of the ship has been finalized. This will be also be applicable for the ships which have anchored already.

All Vessel Agents/ Terminal Operators are therefore requested to take note of the above and take necessary actions accordingly.
