- High quality multipurpose cleaning chemicals
- Environmentally friendly solutions
- IMO and coating manufacturers approved
- Remote technical assistance
- Cost-effective solutions
- Global experience spanning 25 years

The J. M. Baxi advantage

- Over 100 years of maritime experience
- Presence and experience across major Indian ports
- Deep connections across agencies and authorities
- Contacts across peripheral service providers
- Established supply chain connections

TECO Chemicals – Client main challenges?

TECO Chemicals focus is solving your challenges cost effectively, safely, with high quality products and competence

Client challenges	Our solution
Unforeseen & urgent cleaning requirements	High flexibility, world wide stockpoints, staff able to serve and supply 24/7
Need cleaning advise when switching between cargoes	Supercargo services, Remote cleaning, consultancy and terchnical cleaning assistance.
Low product flexibility – Unreasonable stock build up	We offer multi-purpose cleaning detergents, meaning fewer chemical products onboard.
Challenges with Urea and Caustic Soda supply	Cost effective and safe supply by certified manpower and equipment, barge, tank truck or IBC
Reduce turn-around time and ensure cost effectiveness	High quality chemicals, available cleaning advise, short lead time, competitive pricing
